

ABOUT OUR PROGRAM:

Neuropsychologists, Dr. Damann and Dr. Grace co-developed the ADHD Program at Penfield Psychiatry in 2016 to meet the need for specialized cognitive assessment services in the community. Based on the success of the program and high demand for services, in 2018 they expanded to include testing for learning disabilities, vocational evaluations, and forensic evaluations.

Multidisciplinary Treatment:

The ADHD Program is a 'one stop shop' of unique services to accurately assess and treat attention deficit disorders. In addition to assessment we have providers that offer individual therapy and psychotropic medication management for problems with attention and other mental health conditions.

OUR SERVICES:

- ADD/ADHD Testing
- Learning Disability Evaluations
- Independent Educational Evaluations
- Intellectual Testing
- Psychological Testing
- Vocational Evaluations
- Gifted Assessments
- Forensic Neuropsychological Evaluations and Consultation
- Testing for ages 5 and up

Clear and accurate results to help you reach your full potential

MEET OUR TEAM:

Krista M. Damann, Ph.D., ABPP
Dr. Damann earned her doctorate in Counseling Psychology in 2007. She completed a two-year fellowship in neuropsychology, and she is board certified in clinical neuropsychology. Dr. Damann provides evaluations for pre-teen through older adults.

Tanya R. Grace, Psy.D.

Dr. Grace earned her doctorate in Clinical Psychology in 2011. She completed a two-year fellowship in neuropsychology, and she is a NYS licensed psychologist. Dr. Grace is lifespan trained, providing evaluations for children through older adults.

OUR MISSION:

We provide compassionate care that integrates our knowledge of brain function and psychological testing to ensure the most accurate diagnosis and treatment plan for you or for your child.
